at the heart of spinoza's heresy is a mystery why was baruch spinoza so harshly excommunicated from the amsterdam jewish community at the age of twenty four in this philosophical sequel to his acclaimed award winning biography of the seventeenth century thinker steven nadler argues that spinoza's main offence was a denial of the immortality of the soul but this only deepens the mystery for there is no specific jewish dogma regarding immortality there is nothing that a jew is required to believe about the soul and the afterlife it was however for various religious historical and political reasons simply the wrong issue to pick on in amsterdam in the 1650s after considering the nature of the ban or cherem as a disciplinary tool in the sephardic community and a number of possible explanations for spinoza's ban nadler turns to the variety of traditions in jewish religious thought on the postmortem fate of a person's soul this is followed by an examination of spinoza's own views on the eternity of the mind and the role that that the denial of personal immortality plays in his overall philosophical project nadler argues that spinoza's beliefs were not only an outgrowth of his own

metaphysical principles but also a culmination of an intellectualist trend in jewish rationalism

a wide ranging razor sharp exploration of the debate between optimism and pessimism throughout the history of philosophy author mor segev s the value of the world and of oneself considers the question of existence and recounts what our greatest thinkers aristotle maimonides spinoza schopenhauer nietzsche camus have made of the matter

this notable collection provides an interdisciplinary platform for prominent thinkers who have all made significant recent contributions to exploring the nexus of philosophy and narrative it includes the latest assessments of several key positions in the current philosophical debate these perspectives underpin a range of thematic strands exploring the influence of narrative on notions of selfhood identity temporal experience and the emotions among others drawing from the humanities literature history and religious studies as well as philosophy the volume opens with papers on narrative intelligence and the relationship between narrative and agency it features special sections of in depth commentary on a range of topics how for example do narrative and philosophical biography interact do celebrated biographical and autobiographical accounts of the lives of philosophers contribute to our understanding of their work this new volume has a substantive remit that incorporates the intercultural religious view of philosophy s links to narrative together with its many secular aspects a valuable new resource for more advanced scholars in all its constituent disciplines it represents a significant addition to the literature of this richly productive area of research

during 1924 before his last address in september rudolf steiner gave over eighty lectures on the subject of karma to members of the anthroposophical society these deeply esoteric lectures examine the underlying laws inherent in reincarnation and karma and explore in detail the incarnations of specific historical figures for steiner this study is of the utmost importance in this volume steiner discusses the karmic relationships within the anthroposophical movement including the predispositions which lead souls to anthroposophy the two streams within the movement plus rosicrucianism arabism aristotelianism the platonists and the school of michael

using contemporary theories drawn from health humanities this volume analyses the nature and effects of disability medicine and health discourse in a variety of early christian literature in recent years the medical turn in early christian studies has developed a robust literature around health disability and medicine and the health humanities have made critical interventions in modern conversations around the aims of health and the nature of healthcare considering these developments it has become clear that early christian texts and ideas have much to offer modern conversations and that these texts are illuminated using theoretical lenses drawn from modern medicine and public health the chapters in this book explore different facets of early christian engagement with medicine

either in itself or as metaphor and material for theological reflections on human impairment restoration and flourishing through its focus on late antique religious texts the book raises questions around the social rather than biological aspects of illness and diminishment as a human experience as well as the strategies by which that experience is navigated the result is an innovative and timely intervention in the study of health and healthcare that bridges current divides between historical studies and contemporary issues taken together the book offers a prismatic conversation of perspectives on aspects of care at the heart of societal and individual wellness today inviting readers to meet or revisit patristic texts as tracings across a map of embodied identity dissonance and corporal care it is a fascinating resource for anyone working on ancient medicine and health or the social worlds of early christianity

sir francis bacon 1561 1626 english statesman jurist and philosopher created a blueprint for the spiritual and scientific rebirth of humanity rudolf steiner 1861 1925 austrian philosopher and seer had the same ideal but proposed a path of knowledge that could hardly be more different from bacon s bacon and steiner were remarkable characters but even more remarkable is the clash that took place between them across a gap of three centuries according to steiner bacon was programmed by his spiritual handlers from ancient times and through previous incarnations to become the chief architect of an inhuman diabolical technological society could this really be so or was steiner radically mistaken is it possible that steiner was motivated as much by animus as by insight bacon of course didn t say anything about steiner but he did provide a great deal of material that bears on the questions raised by the austrian in tackling these problems keith francis deals with issues that seem never to have been confronted by steiner s followers he gives historical contexts for both men reports on their scientific philosophies and to illuminate the whole situation takes the reader on a journey from the pre socratic thinkers of ancient greece to the post newtonians of modern europe visiting arabian philosophers and european scholastics along the way
